

TS-9ZBS Temperature Sensor

best choice for smart automation !

Battery-powered temperature sensor TS-9ZBS reports temperatures to a control panel every two minutes. The sensor detects temperatures from -10°C to 50°C. Its LED serves as a transmission status indicator.

Features:

- Excellent stability with high sensitivity
- Detects temperature from -10° to 50°C
- Periodic transmissions at intervals of 2 minutes
- Compact & slim design
- Low Battery detection
- Powered by Lithium battery for easy Installation
- LED: Transmission Indicator
- Compatible with other manufacturers' ZigBee products
- ZigBee Certified product

Specifications:

- Power: 1/2 AA, 3.6V Lithium battery x 1
- Battery life: 1 years or over*
- Operating temperature: -10° to 50°C
- Humidity: up to 95% non-condensing
- Dimensions: 103 X 31 X 21 mm

* Note: Battery life is calculated at an average of one activation every 2 minutes.
