

# WCS-1E-ZW Smart Wall Appliance Switch

Easily Control Any Home Appliance at One Touch of One Button

WCS-1E-ZW

- Easy installation – no wiring required
- Easy control of lighting or any home appliance
- Expansion of home automation options

WCS-1E-ZW is a Z-Wave wall-mounted switch designed to remotely turn on/off lighting or any home appliance. The smart switch can be paired to any Z-Wave devices to facilitate the use of on/off on any home appliance or lighting.

The battery-operated WCS-1E-ZW can be installed in any place of home without the limitation of hardwired power source. The completely wire-free wall appliance switch simplifies installation efforts and is ideal for the expansion of home automation options in new or retrofit home where cabling solution are limited.
